

MASTER THESIS ONLINE

UN PROJET DU RESEAU DES BIBLIOTHEQUES DE L'ULG

Functions

Official deposition space for the Master's Thesis

Space for the consultation of the Master's Thesis

- Before the oral defence : the Board of Examiners
- After the oral defence : members of the ULg & rest of the world!

Conservation space for the Master's Thesis

- Passed : visible
- Failed : invisible except to authorized persons (control)

DEVELOPMENT OF THE PROJECT

November 2008 : **production of ORBi**

2013 – 2014 : Development of **MatheO** as a **pilot project** with the Faculty of Psychology, Speech and Language Therapy

— 2015-2016 : Integration of **new faculties on demand**

— Session 2015-2016 : **first live deposits** on MatheO !

2016-2017 : **Expansion** to other faculties

?

STRENGTHS & CHALLENGES

1

HOW TO

DISTRIBUTE
THE
WORKLOAD

?

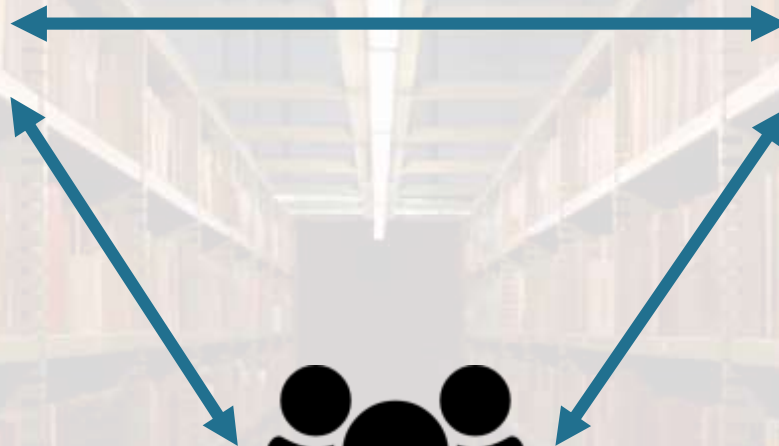

**ONE ACTOR
=
ONE ROLE**

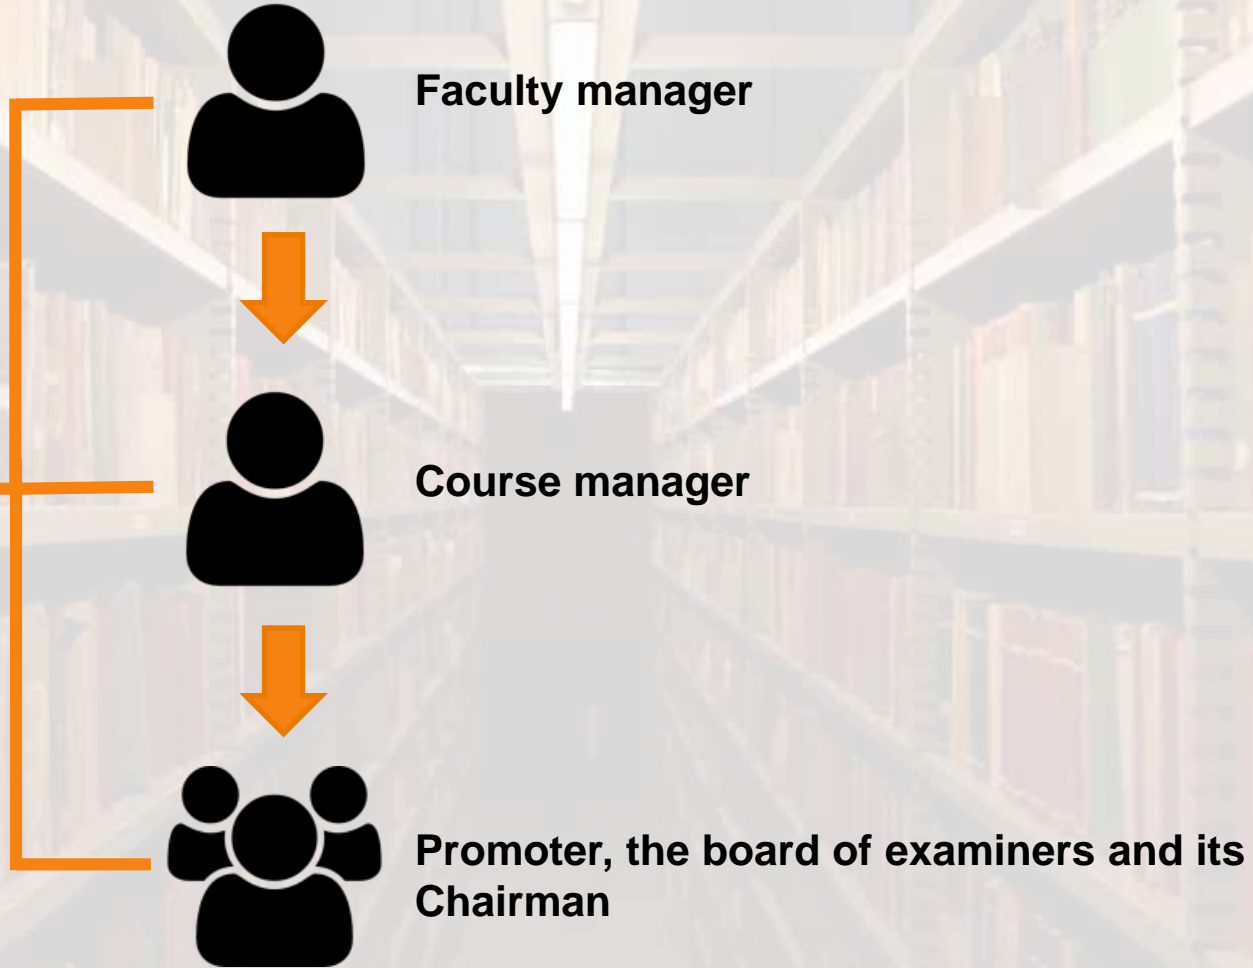

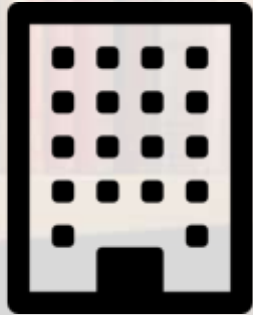

3 ACTORS

matheO

THE UNIVERSITY

THE STUDENT

1. Submit their Master's Thesis
2. Provide additional data
3. Define the maximum access to the file(s)
4. Respond to the requests about reprints when the access is restricted

THE MATHEO TEAM

1. Project engineering management
2. Support and training
3. Search engine optimization

2

HOW TO

FACILITATE
EVERYONE'S
WORK

?

**SIMPLE
USER INTERFACE**

MatheO (Master Thesis Online) est le portail d'accès aux **mémoires de master** de l'**Université de Liège**.

Ce projet, mené par les bibliothèques, vise non seulement à apporter une solution au problème de l'**archivage** « papier » et de la **conservation pérenne**, mais aussi à offrir une **accessibilité** et une **visibilité** beaucoup plus larges à ces travaux d'étudiants dont bon nombre sont de qualité. Les mémoires, sans être de véritables publications scientifiques, représentent un travail et un effort scientifique considérable de la part des étudiants de dernière année de master qui y consacrent souvent de nombreux mois. Ils méritent de ne pas rester enfermés sur des étagères obscures.

De plus, ce projet permet la mise en place d'un processus de dépôt automatisé intégrant notamment un contrôle « **anti-plagiat** ». Enfin, il s'inscrit dans la volonté des bibliothèques de participer activement au rayonnement de l'Institution et de l'ensemble de sa production scientifique, ainsi que dans notre dynamique **OPEN ACCESS** (voir ORBI, PoPuPS).

A l'heure actuelle, seuls les mémoires de master de la Faculté de Psychologie et des Sciences de l'Éducation ([à partir de 2012](#)) sont inclus dans le portail.

Si vous souhaitez nous faire des suggestions, n'hésitez pas à nous contacter via le bouton « Feedback » !

WHO DETERMINES
THE VISIBILITY **?**

Respect for
copyright

Respect for
the institution

ACCESS TO FILES

The access has to be defined to every uploaded file on MatheO (this allows the student to protect, for instance, a sensitive portion of his work)

Open Access

Restricted Access
Ulg members exclusively

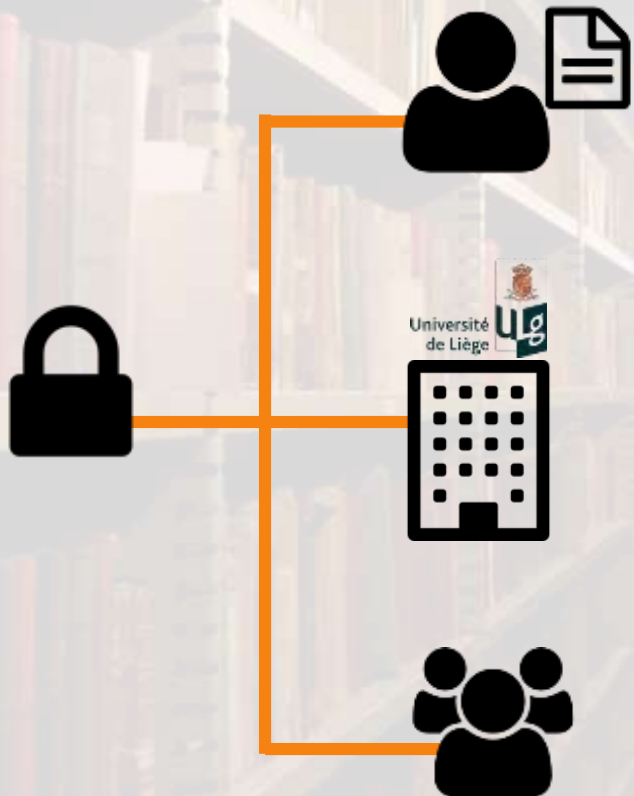

Restricted Access
under embargo

Private Access
Exclusively author, promoter and
the board of examiners, course
managers and faculty managers

ACCESS TO FILES

During the deposit, the student defines the maximal access for each file

The access is automatically adjusted when the score is received according to the following rule :

< 10/20	10-12/20	12-14/20	14-20/20
			

The access can be modified by the promoter once the deposit is validated

The most restrictive « lock » always determines the final access level to the file(s).

Reprint request

		 Who will receive the request ?
		/
		ULg : promoter < course manager < faculty manager
		Student
		ULg : promoter < course manager < faculty manager + Student

Private access
NO reprint request allowed

If the successive levels of recipients are not responding, the request will receive a refusal
