The Song Festival Grounds is the place where every 5 years the Song Festival is held, in which nearly 25,000 singers take part, attracting an audience of nearly 100,000. Estonia's break from Soviet rule - “Singing Revolution,” gets its name from mass folk song events in 1988.
About Big Projects

OPEN ACCESS in Estonia

• Digital repositories have been launched by the Estonian National Library and university libraries

• In 2010 the government adopted a Research Infrastructures Roadmap for upgrading research infrastructures, the project „Estonian Repository and Conservation of Collections“ was approved

• The University of Tartu Library has initiated several OA projects, incl OA publishing and open data

• The DataCite Estonia Consortium includes: University of Tartu, Tallinn University of Technology, Tallinn University and Estonian University of Life Sciences. The University of Tartu Library coordinates the creation of the DataCite Estonia web-based platform

• At present there is no clear national open access policy in Estonia
Tallinn University of Technology

- Founded in 1918
